

G C D
How I long for You! Creation groans for You

G C D
Here amid the brokenness we groan for home

G C D
How I long for You; my soul cries out for You

G C D
Eagerly expecting that someday we will be clothed with You

C G D G
Until then, we're groaning, knowing You are groaning too, beyond what words can express

C D
You lift us up with groans that words cannot express

G C D
You fight for us with love that words can never express

G C D
How I long for You; my bones call out to You

G C D
Leaves and creatures sing Your splendor; glory glows, distilled in dew

G C D
How I long for You; I've tasted one small breath

G C D
Now I long to fill my lungs up with the One who tasted death

C G D G
Spirit, breathe within me, let me know the One who bled beyond what words can express

C D
You bore my shame with groans that words cannot express

G C D
You called my name with love that words can never express

C G D G
Spirit, breathe within me, let me know the One who bled beyond what words can express

C D
You were crucified with groans that words cannot express

G C D
You rose to give us life that words can never express

G C D
How we long for You; creation groans for You

G C D
Here amid the whispers of Your hope we groan

G C D
How we long for You; our souls cry out for You

G C D
Eagerly expecting that someday we will be clothed with You

C G D G
Until then, we're groaning, knowing You are groaning too, beyond what words can express

C D
You lift us up with groans that words cannot express

G C D
You fight for us with love that words can never express

G C D
Lord let us never forget how You bought Your Bride with groans that words cannot express

G C D
You won the fight with love that words can never express

G C D
No let us never forget: You will raise us up with grace that words cannot express

G C D
We'll see You face to face and we'll forever express

G C D
How the fight was won with love that words can never express

G C D
How there's life within the Son Whose precious name we bless

G C D
My words fall short, but Lord, Oh, You're my one happiness

G C (G)
How I long for You
